

Case Study - Wolverhampton Wanderers F.C

Established in 1877, Wolverhampton Wanderers F.C (Wolves) is known as a professional English football club in Wolverhampton. From 1889, Wolves have played at Molineux Stadium and competed in the premier league.

In order to return to the premier league and advance to the group stage, Wolves needed to ensure that their IT Infrastructure was consistently up-to-date, a new SharePoint-hosted website was created, network was fully monitored and had permanent resource.
